I have just made an inspection at Ras 'Amer and regret to inform you that practically every tree (pines, cypressus and carobs - also fruit trees) have been destroyed - eaten by small stock according to a Police report given to me last August.

2. For easy reference the work which was done by the students up to April 25th, 1936 was as follows -

- (1) 10 dunams made into terraces for fruit trees, vines and vegetables.
- (2) 20 dunams, half planted with pines and cypressus.
- (3) 20 dunams, one third planted with carobs.

The above 50 dunams is on the slope of the hill east of the Forest Reserve.

The 50 dunams were given to the school in 1934 for tree planting and terracing by students, and the work will be started again when the school is functioning, but in my opinion no planting can be done this winter, and the only work up to winter 1937/38 will be terracing.

5-12-35 and 11-12-35.

Assistant District Commissioner,
S a m a r i a.

The area was proclaimed Forest Reserve in Official Gazette No.348 of 9-3-33. At the time of demarcation the usual precautions were taken to exclude cultivated lands from the Forest Reserves; additional claims submitted about the same time were dealt with, with the result that 4 cultivated plots were excluded from the Forest Reserve. It was subsequent to the demarcation that illicit opening of 15 new plots was carried on by some villagers of Kufr Sur and Kafr Jammal. The offenders were brought before District Officer, Tulkarm, on 2-6-35, were found guilty and fined. The persons named in the petition transmitted by you under your above-quoted letters are among those who were convicted for encroaching on Forest Reserve land following demarcation; their claim, therefore, appears untenable.

2. Reference paragraph 2 of letter enclosed to your T/10/6 of 5-12-35, it should be stated that Forest Ranger, Tulkarm, is in the possession of a map showing the boundaries of the Forest Reserve and that the Forest Ranger as well as the Ghaffirs will be able to show the boundaries to anybody concerned.

Subject:- Ard el Hadab situated to the east of El
Ayoun.

A big part of the land known as Ard El Hadab
situated to the east of side of El Ayoun was added
by the Forest Dept. to Ras Amir Forest Reserve. On
knowing this we have submitted several petitions in
which we pointed out the injustice action taken for
attaching this land to the aforesaid forest reserve, as
this land is the main source of our livelihood.

The Government aim is to plant arid or
uncultivable lands such as mountains with trees,
because the Fellaheen derive no benefit from it but our
lands are arable.

When the plan of Ras Amir was prepared we
took no notice that our lands were included on these
plans which fact is due to our ignorance. We are
going to suffer a great loss as a consequence of
this act, so we humbly beg that you will appoint a
committee to inspect this land and then our injustice
and the loss we are going to sustain will be clear
to you.

We again beg that our lands be excluded from
Ras Amir Forest so that we may be able to maintain
our families living.

With respects.

I Abd el Kareem Hassan Abdallah of Kafe Jammal
 Tulkharem S/S beg to submit the following : -
 I own a plot of land situated at Jebel el Mudahdara
 East which plot I possess since long ago having
 been inherited to me by my father . In the year
 1932 the F. Ranger claimed a part of it after
 which I submitted a petition to the D. Officer,
 Tulkharem who went out with the Inspector of
 Forests to Jebel Ras Amer West but did not
 come to my land . There I gave the plot in
 question to my nephew Saleh Abdallah to

cultivate it. In 1935 my said nephew was
informed by the F-Ranger through the
D. Officer, Tulharem to quit the land without
knowing why. I therefore shall be much obliged
if you will investigate this case and justify
me as I am a poor man.

I possess a plot of land in the Ras Amer East locality which I own by inheritance from my ancestors and without any claimant. In 1932 a part of this land was encroached upon by the Forest Ranger. I have complained my case to D.O. Tulkarim, who proceeded together with the S.F.O. to my land & handed me over my land, & I continued as usual planting & cultivating it without any objection till 1935, when I received a letter from D.O. Tulkarim based on a complaint by the Forest Ranger on me. I proceeded to Tulkarim & as a result I was deprived of my land & my crops. I shall be obliged if you will sympathise with my situation & let justice take its course.

On the 8th and 9th instant, I visited Ras Amer West (No.216), Ras Amer East (No.217) and El Mudahdara (No.218) Forest Reserves together with the Forest Ranger and Forest Guard, Tulkarm, and the Ghaffir of the Ras Amer Plantation.

2. I surveyed and mapped all plots opened within the above-mentioned reserves in the presence of the offenders who pointed out the boundaries of the respective areas opened and cultivated by them.

3. The attached copy of the map and the appended table show all particulars regarding the encroached areas as situation, name of offenders, areas, kind of cultivation, etc.

4. I revised all boundaries of the above-mentioned reserves, discovered and restored all lost boundary marks and refreshed, where necessary, the paint numbers. The Forest Ranger, Forest Guard, and Forest Ghaffir, are now well acquainted with the boundaries and boundary marks of these reserves and shall be able to guard them against further encroachments.

5. 5 stone cairns, each 2 metres high have been built on prominent points of the boundaries of these reserves.

6. 2 "Closed Forest Area" notice boards and 2 "Forest Reserve" boards have been issued to the Forest Ranger and are now at Ras Amer for fixing in proper places on the boundaries of the reserves and plantation.

7. A new copy of the Ras Amer and Mudahdara reserve map has been handed over to the Ghaffir for nailing it on the office wall at the Ras Amer plantation.

I am arranging for a Forest Surveyor to visit the two reserves in the near future to check all boundary marks and to build masonry cairns at prominent corners. You should assist him when this work is in progress and Forest Guards should be present to learn how to build cairns and maintain marks and numbers. The Forest Surveyor will bring with him Notice Boards and all materials.

2. You should bring a case against persons who have contravened the forest ordinance in these reserves.

3. I am not satisfied with the work or ability of the Forest Ghaffir and will take steps to replace him.

and issue of one tin of paint.

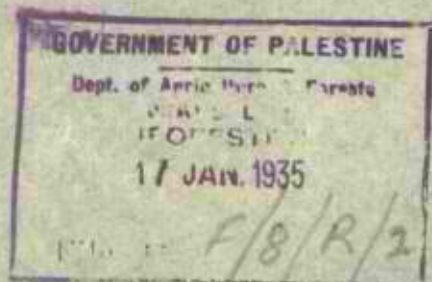

On the 21.11.34 I instructed the Forest Ghaffir to inspect the forest boundary marks, etc. for the preparation of the quarterly reports. On 31.12.34 I asked him to submit these reports, but he said that he was always only responsible for Ras Amer West, and that he cannot read figures in English. I then promised to write for him all the figures of these boundaries in Arabic. On 11.1.35 I proceeded to these forests and was informed on the spot that you have visited the reserve and have instructed the ghaffir to inspect the boundaries marks, etc. from any damage caused. I then called for the ghaffir and we inspected together forest reserves Nos.216 and 217 and I wrote for him all the figures of boundaries in Arabic. I have also observed that the inhabitants have trespassed the reserve No.217 and have planted about 40 dunams. The offenders will be known in a short time and reported for trial.

To obviate any delay in the work of the public, I postponed to inspect forest reserve No.218 for another time.

Please issue me with one tin of paint.
